🌐 Nadun Liyanage | 🔄 NadunML | 🌐 Portfolio

Professional Summary

Computing and Information Systems undergraduate with a strong focus on software project management, system architecture, and agile team collaboration. Experienced in guiding the software development lifecycle (SDLC) from requirements gathering and Object-Oriented Analysis and Design (OOAD) to deployment. Proven ability to lead academic development teams, manage task distribution, and bridge the gap between technical requirements and stakeholder objectives. Seeking an IT Project Management or Software Engineering Internship to leverage analytical planning, effective communication, and technical execution to drive successful software project deliveries.

Core Competencies

- Software Project Management & SDLC
- System Architecture & Requirements Gathering (OOAD, UML)
- Agile Team Leadership & Task Distribution
- Technical Communication & Stakeholder Presentation

Technical & Management Skills

Project Management & Design: Agile Methodologies, OOAD, UML, Jira, Notion, Trello, Figma

Programming Languages: C, Java, Python, JavaScript

Frontend & Backend: React.js, Tailwind CSS, Node.js, Express.js, REST APIs

Databases & DevOps: MySQL, Firebase, Linux (Ubuntu), Git, GitHub Actions, Vercel

AI Technologies: YOLOv8, MobileNetV2, OpenCV, dlib

Projects

CareVision LK — Project Lead & Full-Stack Developer | Group Project

🔗 GitHub | 🌐 Live Demo

- Led a cross-functional student team through the SDLC to deliver an AI-powered hospital surveillance system.
- Designed comprehensive system architecture utilizing OOAD principles and UML diagrams to align with project requirements.
- Managed project milestones, task distribution, and coordinated development efforts across frontend and AI integrations.
- Prepared technical project proposals and delivered structured presentations (including slide decks and scripts) to academic lecturers.

Restaurant Food Ordering System — Technical Planner & Developer

🔗 GitHub

- Analyzed business requirements and designed database schemas for a full-stack online food ordering application.
- Managed the end-to-end development workflow, ensuring seamless integration between customer and administrative workflows.
- Implemented dynamic cart management and custom time-slot scheduling features prioritizing user experience.

Study Focuser Pro — Developer & UI/UX Planner

 [GitHub](#) |  [Live Demo](#)

- Planned and executed the development of a productivity web application based on the Pomodoro technique.
- Designed user interface wireframes and translated them into actionable development tasks prior to deployment.

University Management Systems — Developer

- Implemented database-connected Library and Tourism Management Systems as part of core academic studies.
- Applied software engineering fundamentals to map relational database concepts to functional application requirements.

Education

BSc (Hons) in Computing and Information Systems

Sabaragamuwa University of Sri Lanka

2024 – Present

Expected Graduation: 2028

G.C.E. Advanced Level – Physical Science Stream

St. Aloysius College, Galle

Z-Score: 1.3241

2022

Certifications & Competitions

- **Python for Beginners** — University of Moratuwa
- **Innovate with Ballerina Coding Challenge**
- **MoraXtreme 10.0**
- **JPURAXTREME 2.0**

Volunteering & Event Management

- **Technical Support Member** — AURELIA 2.0 (IEEE WIE Day 2026)
- **Main Video Editor & Content Planner** — SDG Task Force Phase II, Rotaract Club of SUSL
- **Media Crew Member** — Xmasora 2025, Rotaract Club of Sabaragamuwa University of Sri Lanka
- **Logistics & Planning Team Member** — IEEE Day 2025, IEEE Student Branch of SUSL
